Leave The Gun and turn left around the corner of the building. Follow the yellow arrow on the post of the fence and walk through the children's playground to the furthest corner. Walk over a broken style and continue straight across the field in the direction of the corner of the forest. Carry on straight along the edge of the forest until a style at the end. Climb over the style, cross the road and walk into the next field (past the signpost with two yellow arrows).

Keep walking straight, climb over the next style (or rather logs next to both sides of the fence) and carry on across next field to the gate in the second side (the gate is marked by a yellow arrow) **(1)**. Go through the gate, turn slightly right and follow 2 more yellow arrows through the farm property until you reach a road.

Turn left onto the road and keep walking until you see a pond on the left. In front of the pond turn left and climb over a style **(2)** into a field. Keep walking straight along the edge of the field (the field is on the left and the pond is on the right) and climb over the next style into the next field. Continue along the same edge, over another style, along the edge of the next field until you meet the last style **(3)**.

Climb over it and turn slightly to the right onto the asphalt road. Follow this road for 0.5 mile (800m) until a bridge with white rails. Immediately behind the bridge turn left into the forest. Follow the wooden signpost and go through the wooden gate **(4)**. Continue along the trail next to the fence of the farm property. Follow the trail to the right around the corner of the private property and walk until you see an iron gate on the right. Here turn left onto the path, walk over a small stream and continue along the trail up the hill. Keep walking straight until you meet a style **(5)**.

*Climb over the style and walk slightly left across the field, climb over the next style, go over a small stream and walk to the left around the pond. There you can find nice benches and a table right next to the pond **(6)**. After a relaxing break go back, climb over the style again and turn left. Follow the edge of the field until you meet a style on the left side.*

Turn slightly to the right and walk diagonally across the field to the furthest corner. Climb over a style and keep walking up the hill across the field. Climb over the next style and still walk straight. Climb over the last style and turn left onto the road. Follow this road until you see The Gun on the left.
